Yes, although I do not know to what extent the HQ program office has been involved. I was a little surprised to see this invite/presentation come from Lisa.

I believe the program is planning on running it jointly by EPA, the State (DOGGR and State Board) and possibly contractors with technical experience developing AE's- I have not seen any materials.

Do you know who will be conducting the AE workshops and whether any materials will be created for them? I haven't seen anything ...

Hi there – Just wondering whether you are planning to listen in to this discussion on AEs at the Groundwater Protection Council-EPA meeting tomorrow. I was surprised to get the invitation. I have a conflict with the first part of the meeting, but plan to listen in as soon as I can get back to my desk (around 3:10 eastern time).

I'm particularly interested in the CA AE workshops. Alexa – do you know what's happening with the planning for those workshops? I haven't heard anything for a long time.
